R&A LEVEL 1 RULES SEMINARS

The presentation is a component of the R&A's international Rules education platform of resources with the focus being on the principal abbreviated Definitions and the Quick Guide to the Rules of Golf.

The session will include video clips highlighting real life rules scenarios encountered.

The seminars are suitable for golfers with a desire to become better informed about the Rules for their personal golfing benefit. No knowledge of the Rules or a basic understanding is required.

A successful Level 1 participant (i.e. someone who passes the Level 1 online exam) is regarded by the R&A to be a reasonably well-informed golfer who would be able to proceed correctly in the majority of common situations encountered whilst playing the game.
